## *DEEP DIVE*

STARTING DATE: 4 MAY 2020

The deep dive is an advanced music production class for people who want to start really finishing tracks. It is a combination of group workshops, in-depth seminars, field trips, and project work, that ensure that at the end of 3 months, you will have finished 1-3 tracks that are high enough quality that they can be sent to labels or played on the radio.

The course takes 12 weeks (24 classes), on Monday & Wednesday, 18h30-20h30, in the center of Brussels.

During workshops, students bring in their own projects, and together we analyse and develop them. During the seminars we'll go deeper into technical concepts like synthesis, arrangement, recording, analog synths, mixing, and live performance.

The deep dive includes at least two guided field trips: one tour of a huge nightclub in Brussels to understand how it all works behind the scenes, and one tour to a professional recording studio to understand the difference between a home studio and a high-end studio environment.

The course will dig deep on the genre-specific details of your genre of choice, including urban/hiphop music, and techno/house/trance music, or even IDM and left-field electronica.

Get personal followup throughout, with continuous feedback on your productions.

€999 (total price)

# *DEEP DIVE*

STARTING DATE: 4 MAY 2020

**Requirements:** If you are familiar with the basic functions of your DAW, and have started trying to make your own tracks, you know enough to join the Deep Dive.

Classes are taught using Ableton Live (the [intro version](#) is enough), but the concepts also apply to other software.

The classes are taught in English, so at least intermediate English is required.

## *CLASS DATES*

*(subject to change!)*

## *DEEP DIVE*

STARTING DATE: 4 MAY 2020

### *REGISTRATION*

The full price for the deep dive is 999€, which includes:

- 48 hours of class (24 x 2 hours)
- 1 physical behind-the-scenes guided tour of a major nightclub in Brussels
- 1 group tour to the La Savonnerie music studio
- Access to the underdog student area on the website, where you will find presentations, documents and project files to support the classwork
- The guarantee that if they follow along with the exercises and classwork, they will end the Deep Dive with 1-3 tracks that are high enough quality to be sent to labels or played on the radio.

Students are advised to bring their own laptop with their music software installed (Ableton is recommended – the intro/lite version is sufficient).

**Capacity for the deep dive is limited.** To reserve your spot for the Deep Dive, transfer 50€ to BE42 7350 2941 7054, mentioning your name. The remaining 949€ should be transferred or paid in cash on the first day of the class.

Contact [oscar@underdog.brussels](mailto:oscar@underdog.brussels) to know if your registration has been confirmed successfully, or contact him via +32 498 081463.

## *ABOUT UNDERDOG MUSIC SCHOOL*

Electronic music is everywhere. On the radio, in the clubs, at the festivals, and so many of us would love to give it a try to make some. After all, the barriers to trying it out have never been so low! A laptop and a copy of Ableton Live could be enough to get you started, but where to begin...

Underdog classes are made for exactly this reason. Step by step, you learn a structure for making electronic music, and once you master the basic principles, you get coached to develop your artistic potential. The technical side, and the emotional side, all without needing to spend huge sums of money.

If you think you might like to know more, you can start with the 6 week bootcamp to understand what it's all about, and whether it's as sexy as you were hoping it would be. Once hooked, there is the 12 week electronic music deep dive, after which you'll be consistently finishing tracks, and you'll be starting to think about the more artistic aspects that will help you stand out and get you up on stage.

Underdog classes are taught in the center of Brussels, because a face to face contact is the best way to help you figure out what knowledge you're missing. Learning goes way faster if you have a mentoring relationship with your teacher. The classes are in the evening, so you can combine them with your work or studies. Reach out to us with any questions if you want to know more!
